## Introduction

Passionate and dedicated programmer with 3 years of experience in frontend development. Proficient in JavaScript and frameworks like React and Vue. Skilled in problem-solving and creating robust, user-friendly applications. A strong communicator and team player with a commitment to continuous learning and staying updated with the latest technologies. Flexible with tech stacks and experienced in startup competitions, aiming to build impactful and innovative solutions.

## Experience

**KBZLife** August 2023 - Present

Frontend Developer

- Contributed to the development and maintenance of **Myanmar's pioneering online self-service insurance portal and Core System using React**, enabling customers to manage policies and payments digitally.
- Collaborated with backend teams to integrate RESTful APIs for life insurance products, addressing intricate business rules and regulatory requirements.

**OOAK Telecom** August 2022 - August 2023

Frontend Developer

- Developed and maintained the frontend using Vue, an e-commerce platform offering affordable SIM cards and pocket WiFi services tailored for foreigners in Japan.
- Collaborated with the backend team to ensure seamless integration.
- Enhanced user experience through responsive design.
- Multilingual support to cater to a diverse user base.

## Projects

### Portfolio

Myself

<https://ngwesinsandarnext.vercel.app>

After I watch cyber punk anime, I really want to remake my portfolio with that theme.

### Favourite Simps

[NextJS, Material UI]

[View Detail](#)

A lighthearted fan page celebrating favorite characters, built with a creative and fun approach.

### Kim Da Mi

[NextJS, Tailwind]

[View Detail](#)

A visually engaging fan site dedicated to the actress Kim Da-mi, showcasing her filmography and biography. I just want to test page transition with framer motion.

### Blog

[Laravel, Tailwind]

[View Detail](#)

I just want to test Laravel with Tailwind.

### Music Project

[HTML, CSS, JavaScript]

[View Detail](#)

An interactive music-themed web application for discovering and exploring songs. This music web app was inspired by a tutorial from MSquare's YouTube channel on building a music project.
